## Guide:

1. Make sure you're in the main branch locally and `git pull origin main` any pending changes
2. Make a new branch per the recommended branch name below ( `git checkout -b ...` )
3. Fill in the items in the worksheet below (save as often as necessary)
4. Once finished, export the worksheet

5. Add the output file to any location of your choice in your repository folder
6. Check that git sees it via `git status`
7. If everything is good, continue to submit
8. Track the file(s) via `git add`
9. Commit the changes via `git commit` (don't forget the commit message)
10. Push the changes to GitHub via `git push` (don't forget to refer to the proper branch)
11. Create a pull request from the homework related branch to main (i.e., main <- "homework branch")
12. Open and complete the merge of the pull request (it should turn purple)
13. Locally checkout main and pull the latest changes (to prepare for future work)
14. Take the same output file and upload it to Canvas

### Task #1 - Points: 1

Text: Fill in the below prompts

#1) What concepts/topics were totally new to you?

Explanation (required)

*Mention specific concepts/topics*

PREVIEW RESPONSE

One of the concepts that was new to me was the image mapping in html. that was really cool because i did not know it was possible and how easy it is to implement. Then JS can also perform a function based on the clicked part of the image, i can see myself creating lots of cool stuff using this. alot of the stuff in JS was new to me as well like the DOM document object model. I think i was overwhelmed with how much you can do with JS

#2) What concepts/topics were you familiar with?

Explanation (required)

*Mention specific concepts/topics*

PREVIEW RESPONSE

Many of the concepts

#3) What topics do you still not feel confident about?

Explanation (required)

*At least a few reasonable sentences.*

PREVIEW RESPONSE

There are a few topics i still feel a little unsure about but i think it's because I have trouble remembering all the rules for all these languages. it will take some time and practice to feel completely comfortable with everything i just learned
